Wasp and Fly Bait

Simply pour into a suitable monitoring trap for rapid and effective action against wasps, flies and hornets. Based on natural food ingredients it is safe to use in both outdoor and indoor situations. The specially formulated bait does not attract bees or other beneficial pollinating insects.

Pour the required amount of AF® Wasp and Fly Bait into the monitoring trap(s). Place the monitoring trap(s) in areas where wasps/flyes are causing nuisance.

It is recommended that the traps are serviced regularly and that insects are removed, and the traps refilled with fresh bait.

- **Not for human consumption.**
- **If medical advice is needed, have product container or label at hand.**
- **Keep out of reach of children.**

This product is not classified according to (EU) No 1272/2008.
